23-Feb-2018	DBRS	A (Positive)	A (high) (Stable)

Credit-rating agencies issue credit-worthiness opinions based on objective analytical methodologies and are intended to assist in overcoming information mismatches between issuers of debt securities (international financial institutions, sovereigns, public and private corporate sector) and investors. Credit ratings are important for the rated entities/countries as they generally affect their cost of borrowing.

** Scope Ratings GmbH issued its first credit rating for Malta on 9 November 2018. No rating or rating outlook change occurred since then.*
